Washworld Advanced Technologies

At Washworld we are continually striving to provide technologies that improve the efficiency and quality of our wash systems while keeping them simple to operate and maintain. Advancements like Virtual Attendant® which eliminates trips to the site to reset the wash; VS2® (Vehicle Sizing System) which provides consistent vehicle sizing that is safe and reliable and Flex Pass which increases thru-put with fewer product application passes are designed with our customers in mind. All can be controlled with Washworld's exclusive Washview® and Washview Remote which give you access and control of your wash through a PC or laptop or with a Tablet or Smart Phone. At Washworld our innovations give you a quicker and larger return on your investment.
