Washworld Inc. Unveils New Touch-Free Car Wash
Luxury Meets Speed in Vehicle Wash Designs.

DE PERE, Wisconsin: Washworld, Inc. brings a new In-Bay Automatic vehicle wash to the line-up with the Razor® EDGE. Meet the perfect combination of speed and user experience in car wash technology. The Razor® EDGE comes equipped with all our reliable Razor® components but now includes an intense customer experience featuring all new elements: HyperFlex, LumenArch and SpectraRay. With HyperFlex, two product applications systems combine in one resulting in faster wash time. LumenArch includes 324 LED lights that create an eye-catching spray arch glow - both during applications and while idle. SpectraRay is a spectacular array of 4,528 LED lights that fill the wash bay. Razor EDGE's red, magenta, blue and green LEDs are customizable to add color enhancements during all product applications to accentuate the experience and memorability of the entire wash process.

With a formal unveiling and presentation at The Car Wash Show in Las Vegas, Nevada on April 26, 2018, Washworld is also celebrating the new product launch online with Washworld fans around the globe. Our digital unveiling of the new Razor® EDGE - on all social media platforms - shows how new eco-friendly technology combines with the best of car wash chemistry to forge a dynamic future.

Washworld, Inc. manufactures innovative vehicle wash systems built with quality materials. Washworld is committed to seeing everything through the eyes of our customers - and our customer's customers - to provide top-shelf products with high-end value. We expect nothing less than the best from ourselves and our machines. Washworld manufactures four different Touch-Free and Soft-Touch In-Bay Automatic car wash equipment systems: Razor®, Revv®, Profile® and now the new Razor® EDGE.
